Literature

SECTION 14

The literature section of the Danchuk catalog is where you will find all those wonderful “How To” books that show you how to do this and how to do that along with a number of automotive books that are just plain interesting reading.

You will also find two of the most important items available to help you with your project, the factory service and assembly manuals. You will find reprints of all the owners’ manuals and the Chevrolet Service News pamphlets that Chevy sent to their service departments highlighting repair and troubleshooting procedures. Wiring diagrams, Fuel Injection manuals, AC system manuals, accessory installation manuals and reprints of many of the items used in the dealerships of the day to assist customers in choosing things for their new car.

And then there are the decals and stickers, jacking instructions, new car inspection sheets, air cleaner decals, factory window stickers, radiator tags, valve cover decals and if you look closely you can probably find a Bow Tie decal too!

IN THIS SECTION:

- OWNERS MANUALS
- SHOP MANUALS
- HOW-TO BOOKS
- DECALS
